SkyTel is a licensed telecommunications service provider specialising in the use of satellites to connect people and places to the internet. For over 10 years we have been supporting our clients to make confident decisions about their telecommunications investments.

We take a diagnostic approach to satellite telecommunications enriched by technology and an agnostic approach to satellite operators and orbits. Our Satellite Consultants put your needs at the centre of the solution.

## SERVICES

### SkyGEO

**Geostationary fixed satellite internet service for businesses**

SkyGEO is our primary geostationary offering, utilising satellites positioned 36,000km above the surface of the Earth. Our SkyGEO plans offer latency of ~600ms and utilise Ku Band frequency spectrum. SkyGEO can give your business dedicated internet for your private enterprise grade network.

### SkyLEO

**Low earth orbit (LEO) fixed satellite internet service for businesses.**

SkyLEO is our primary low earth orbit offering, utilising satellites positioned 1,200km above the surface of the Earth. SkyLEO can give your business high speed low latency of ~100 milliseconds dedicated internet for your private enterprise grade network.
