The Kymeta u8 Hawk GO Rapid Deploy Flyaway Antenna System is a packaged terminal solution that includes the Kymeta U8 Antenna, integrated Onweb modem, LNB, BUC, and optional 4G modem with SD-WAN device, and Wi-Fi system all integrated into a durable pelican case for rapid deployment. This setup can be deployed to remote locations around the world to support emergency services and humanitarian support missions.

SERVICES

SkyLEO

Kymeta U8 Hawk Fixed Solution

SkyLEO is our primary low earth orbit offering, utilising satellites positioned 1,200km above the surface of the Earth. Activate our SkyLEO service with your Kymeta U8 Hawk Fixed or GO to our high speed low latency of ~100 milliseconds dedicated internet for your private enterprise grade network. Our terminals are electronically steered satellite antennas that seamlessly connect your network with fibre-like speeds.

Kymeta U8 Hawk GO Solution

-  Designed for mobility & fixed
